

FLINT SPRINGS ROBOTICS SCHEDULE

The Flint Springs Robotics team will be creating a VEX IQ Robot that they will take to competitions. This will be a student effort where they will be guided by the teacher and any assistants, but the students will be completing all the work on their own. Students will then compete with other schools in an effort to score well enough to make the State Robotics competition. Going to the State Competition is not the goal of this team, however. This team was created to help students enhance their problem-solving skills while working with a small group of fellow classmates to find a solution.

Robotics club will meet on Tuesdays and Thursdays from 2:30 to 4:30, and will extend hours of meetings once we get closer to competition.

Flint Springs Robotics will compete in two competitions this year:
Saturday, January 20th, 2018 @ Cedarville Elementary, in Ft. Wayne, IN.

September 28th (No Robot)

- Team Structure
- The Marshmallow Challenge
- Game Rules and Scoring
